EXPLORE SOUTH ASIA YA TEAM

MAKE IT YOUR MISSION TO GO | JANUARY 2018

EXPLORE SOUTH ASIA YA TEAM

Jesus is changing lives in South Asia*! **Be bold**, pack some **courage and faith** and come explore one of the world's poorest and most densely populated nations. You will experience the hope that is being brought to poor communities through the work of our partner NGO (non-government organisation). You'll gain insight and understanding into on-the-ground development work and see how **Jesus is transforming lives**.

Challenge yourself by **stepping out of your comfort zone** as we visit projects in both rural villages and urban centers. The team will meet savings groups, education groups and income generation projects, and learn about eye camps, functional education, health and wellbeing classes, safe water, midwifery, marginalised children and disability programs. We'll also have fun providing short programs for pre-school children in urban slums, rural villages and at our partner NGO's annual staff conference.

You'll experience this country's wonderfully **rich and colourful culture**. You'll need to cope with the reality of life in a developing country—pollution, bumpy roads, transport delays, changing itinerary, restricted diet (rice, vegetables, chicken/ fish, no alcohol), and cross cultural relationships with non-English speakers. And along the way you can get a henna tattoo, visit local markets, see lots of beautiful smiles, and find Jesus in **unexpected places**.
